WEDESDAY, OCTOBER 27.

### DEMOCRATIC TICKET.

FOURTH DISTRICT.  
A. B. MONTGOMERY,  
FOR CONGRESS.

The Enfield rifle has been rejected by the English army authorities on account of its being too complicated.

The friends of Judge Montgomery and Judge Belden, the rival candidates for Congress from this District, should not forget that these gentlemen will be in Hartford next Monday.

Mr. BLAINE, in his recent Lewis-  
ton speech, spoke impassioned against civil service; he impassioned that should the Republicans be successful in 1888, the Democrats in the Government employ would have to walk the plank. The great northern states are really talking too much.

The Third District committee met, and nominated John S. Reed for Congress. Many Democrats of that District believe that the action of the committee was unwise, and that the nominee, under the circumstances, should have been a new man. A solid party vote must be cast to insure success, and it is thought that reconciliation between the factions sufficient to bring out a vote, owing to the short time to elapse before the election, is impossible.

The Louisville Exposition closed last Saturday night. The novelty has worn off such institutions, and as the result of it, the Louisville show has made an \$18,000 unpaid debt, assets partly undiscovered. These assets are invaluable, but the revenue, will, as they have done, support the Democratic side of the House, that making as a reduction of the tariff. The laboring element in all parts of the Union are demanding this reduction, and the fall of an unnecessarily high tariff will be rebuked by them without regard to party affiliation.

**THE TIE.**  
The people of Ohio will be called upon next Tuesday to determine by their votes whether law, order and sobriety shall rule the land, or whether lawlessness and drunkenness shall hold sway. The people should not regard it as a mere question of convenience, a matter easily disposed of; they should not be led astray by any false reasoning. It is simply a question of sobriety or drunkenness. Shall our jolly hold the raving mania? Is it not our duty to ameliorate the condition of our fellow citizens? Are we not bound to remove the temptation as far as possible from our young men, who are just entering upon active life?

The voters are called upon to decide a most important question. The responsibility resting upon them is great. If prohibition is defeated, peace and dignity are defeated; and so are the people of Kentucky.

It does interfere with the disbous and franklout sale of whisky.

Corn bread has aleched in it, but corn bread is not whisky.

Don't be led astray by absurd arguments.

Go to the polls next Tuesday and vote against the sale of whisky in Ohio county.

**H. D. McHENRY** is very flattering spoken of for the United States Senate in the Breakerly News. The reader's attention is directed to the article in the Breakerly from that paper. There is not a man in the State better able to represent the people of Kentucky than our townsmen. The Fourth Congressional District has no able citizen than he. Southwestern Kentucky should make common cause in presenting Mr. McHenry to their constituents. For honesty of purpose, political knowledge, and executive ability, Mr. McHenry would have no superior in the Senate, and would be the peer of the ablest man of that body.

**WEST AND EAST.**

It would seem from the following resolution in the platform adopted by the Grand Lodge, which has just closed its session, has put the seal of its condemnation on saloon-keepers. In Kentucky, hereafter, saloon keeping is a Masonic offense. Many of the bar-keepers and owners are Masons, and it is a question whether the resolution will not necessitate a change of business. According to the resolutions, a trial must be had, and the saloon-keeper must be expelled, but why should body should strike at the saloon, and let the wholesale dealer escape, is yet an unsolved problem. It is certainly as wrong to sell a barrel of whisky as it is to sell a glass, for the same purpose—drunkard-making.

The distiller, the wholesale dealer, the druggist all do wrong, and should be placed in the same class.

### THE MASONS.

The Grand Lodge, which has just closed its session, has put the seal of its condemnation on saloon-keepers.

### NOTES, ATTENTION:

For the first time in your lives next Tuesday will you be asked by the election officer: "Are you for or against the sale of whisky in the county of Ohio?" An important question. Let me say, "Against the sale." But some will say, "If we vote against it, we can't be a champion or paragon, and we might get sick some time, might have some gripping pains and aches, and might want some paragon and might not get it, and therefore we might be in a mighty bad fix." Maybe we will not be bent over with pains. Let's climb the hill when we get to it. Don't let us rush too fast, or we might get out of breath before we get to the hill. But to be serious,

that is all bosh. The law makes illegal the sale of spirituous, vinous or malt liquors—nothing more or less.

According to the theory of those who talk that way, corn bread is whisky, because meal is made of corn. An apple is either good or bad. A paper rag and rug is a paper. The law does not go along with the theory of office-seekers at home, a man of experience in legislative affairs, successful in business, equal to a paper. Paper is a rag and rug which claims dominion over the soul of Kentucky, quiet and undomesticated by habits, indolent and persistent as a worker, a close friend and when accessible, a confidential adviser of the leader of the party, Hon. Sam Belcher, who wrote the "Times." He would suit the people. His name is Hon. Henry D. McHenry, of Hartford. We do not know that he would submit his name to nomination, but we do know that he would make a statesman of whom the people would be proud, and she of her peer of Mr. B. T.

### MONTGOMERY AND BELDEN.

The trial Congressional Candidates Speak at Elizabethtown—Belden's Return and Belcher's Strong Tariff Argument.

(Special to the Courier—)

ELIZABETHTOWN, Oct. 22.—

Judge Montgomery and Belden,

Democratic and Republican candidates for Congress, met on the stump here and did their level best to sustain their respective theories. The efforts were good, however, that the most causal listener could easily pick out the speaker who handled the question with the greatest ease and effectiveness. Judge Belden is too ready to be interesting, and deals with his subject in a manner that is attractive, while Judge Montgomery disengaged the tariff question with such ease as to surprise those who thought him less than he.

They lay the progress of civilization to the tariff.

They destroy the peace and happiness of tens of thousands of families.

They reduce many virtuous wives and children to beggary.

They cause many thousands of men to emigrate.

They prevent all reformation of character.

They render the strongest resolutions.

The millions of property expended in war are lost.

They cause the majority of cases of insanity.

They destroy both the body and the soul.

They burden other people with money and the support of paupers.

They cause impure expenditures to prevent crime.

They cost sober people immense sums in charity.

They burden the country with taxation.

Because drunkards want the temptation removed.

Drunkards want the opportunity removed.

Other people want the nuisance removed.

Tax-payers want the burden removed.

The prohibition would save thousands now failing.

The tax exposes our families to destruction.

The sale exposes our persons to insult.

The sale upholds the vicious and idle at the expense of the industrious and virtuous.

The sale subjects the sober to great oppression.

It takes the sober man's earnings to support the drunkard.

It subjects numerous wives to want.

It is contrary to the Bible.

It is contrary to common sense.

We have a right to rid ourselves of the burden.

The officers of the election next Tuesday, shall know that each voter must furnish a written ticket with the same line, once in the space set apart for prohibition, and once in the space set apart for members of Congress. A mistake in this might lead to serious complications.

Dr. C. E. Stowers the popular Rockport dentist, will be at his rooms at Mrs. J. R. Phillips' on Friday, the 30th and Saturday, the 31st. Those needing his professional services should call early. Dr. Stowers makes his regular trips, and is always to be found in Hartford, on the 2d of each month, and Mrs. Vaughn's are his headquarters permanently established.

Terrible Fire.—The Rockport prison, which was arrested on Friday, November 1st, was brought to town yesterday in custody of Mr. J. B. Chambliss, marshal of Fortville. The prisoner is charged with having committed rape on the person of his little daughter, aged about 12 years.

He was arraigned before Esq. J. H. Vaught, his headquarters permanent established.

Arrested.

John Hawkinson, was arrested on Friday at Central City, on behalf of the State of Kentucky, as the time of holding the November election. It is not the second Tuesday in November, as some suppose, but the Tuesday after the first Monday, which is next Tuesday, the 2d of the month. Be sure to vote and vote against the sale of liquor.

W. A. Roberts, of Nelson County, candidate for re-election as a member of the State Board of Equalization, subject to the action of the Democratic party, November election, 1880. Mr. Roberts is a practical farmer and should receive the support of the people.

But, a mistake exists as to the terrible charge.

Walkerent Centerow.

Mr. John R. Ashby, of the Center town neighborhood, on the 2d of the month, Esq. D. E. Walker, in behalf of prohibition at Center town, last Friday night had a very fine effect. He had a large attentive audience, and his

arguments were so logical and convincing that many who went to the meeting as anti-prohibitionists, came away in favor of, and are now warmly advocating it. Mr. Ashby thinks that Center town will hold 100 majority for prohibition.

Happy Nov. 1st.

Last Thursday, Oct. 21st, the elegant parlor at Mr. E. B. Allen's was thrown open to the public to witness the marriage of his daughter, Miss Estelle, to Mr. St. Clair Walker, of Owenson, Ky. ## THE COMMON SCHOOLS.

This Department is edited by Messrs. E. P. Miller, D. C. Dunford and Misses Ida Combs and Etta Willis.

### ACT YOUR PART.

Parents, if you do not get the benefit of the first half of your school, then it is your duty to see that he gets the benefits of the other half. If he is not quite as far advanced as others of his age, then let him go to school for a few days, let him remain here, he is deprived of the opportunity of adding to his store of knowledge an equal amount to what they gain. Again, do not expect the teacher to teach him when he is absent from his classes. If he goes half time, expect him to get only half benefits.

Because your teacher is not perfect in all things, do not let your child care about him. If you care about your child, speak of him only in the best terms, and endeavor to get the child to place implicit confidence in him. Below is a list of rules:

Don't stay your child from school because of so-called mistreatment by the teacher. If you anticipate such, only pause long enough to ask why, why suppose the teacher is unfair or unfair. Don't deprive your child of the necessities of life to revenge yourself from a so-called offender. The teacher may be, and often is, in fault, but no person is perfect. He may justish his students, and overwork them, if he is not unusually slow. It gives you no grounds to knowingly do wrong. You have employed your teacher, and expect to pay him. He holds a certificate of qualification, and it is supposed to be good for his good name and reputation. Those don't try to dictate to him how he should teach your children. If he is a young and inexperienced teacher, you may trust him, and then have a bit of trouble, but don't be afraid to speak with him for that fear that he might form the idea that you were out of your place, and meddling with his affairs. By all means let him teach the school, but give him every hearty support. "Act your part; then all the honor lies."

The following schools were elected to the County Superintendent, L. P. Loney, during the week ending Oct. 16, '86:

No Creek District, No. 54, George T. Lindsey, teacher.—Considering everything, the school is getting along exceedingly well. Both teachers and pupils are interested in their studies. The average attendance is small at present, owing to so many being at work on the farms, etc.

Bethel, No. 100, R. A. Brown, teacher.—After a month's trial, the school, and giving the school a talk of about 30 minutes, I found the school in excellent "running order," progressing well. Both teacher and pupils are at work, and the school has been good, from beginning. Forty-eight in attendance when visited.

District No. 12, I. C. H. Coover, teacher.—I remained about three hours at Mr. H. C. H. Coover's school, and found him to be a man of very great ability. The school, and I must say I was greatly pleased to see how well the teacher had the different classes arranged, showing that his whole soul is in his work. The classes were very well arranged, to the very short time in which he has been teaching. The trustees should see that the school house is fitted with suitable seats and desks, for the ones they have not fit for use. Look again at the school.

District No. 55, near W. B. Tiebner's, H. V. Rowan, teacher.—I spent some time in this well conducted school, and remained to stay a week. I found several very interesting classes, etc., viz: grammar, geography, spelling, etc. The manner in which the pupils received their lessons, showed that they had been studying well, and that great interest had been taken in their studies. I left at the school house at night, and was pleased to see so much interest being taken by the parents of the District. The educational work of the community has never been more remarkable than it is now. There's sure to be a general interest, and a growing disposition upon the part of the patrons to furnish suitable school books, and to send their children to the schools. The District has no "screwy" ones, and it is well furnished. Attendance good.

District No. 105, near R. E. Williams, Miss Lulu Cox, teacher.—The school house in this District is not in good condition, and the school is not doing well. The young lady had everything well arranged, in fact, the condition of her school went to prove that the position was filled by one of the best teachers in the State.

The teacher and pupils are manifesting great interest, and seem to be thoroughly alive with their work. If the same interest is being taken by the trustees and the community, I feel confident that the cause of education will be in a very prosperous condition at the close of the school. The general average is good.

District No. 61, near Anna, Hawkington, teacher.—A month ago, at present, is in a thriving condition. The teacher was fully up to her work, and seems to inspire her pupils with a desire for knowledge. This school can-

not be classed as it ought to be, unless the patrons will do their duty in supporting the school.

The recitations were very interesting. Miss Annie is conducting her school in such a manner as to receive the approval of the parents.

She looks over your books and tells you if you have the right to be in school to teach, and that is, a very good way. Was proud to have the pleasure of meeting such a large crowd at the Literary Society on Thursday night. There seems to be considerable interest manifested in the school, and the trustees are not backward in their efforts to keep the school in a good condition.

There is an increasing interest being felt, by the people of this community, for the cause of education.

District No. 57, Miss Maggie Thomas, teacher.—I found a school that is in excellent condition. But one draw-  
ing room, and that is, a very good way. Was proud to have the pleasure of meeting such a large crowd at the Literary Society on Thursday night. There seems to be considerable interest manifested in the school, and the trustees are not backward in their efforts to keep the school in a good condition.

There is an increasing interest being felt, by the people of this community, for the cause of education.

District No. 57, B. W. Taylor, teacher.—This school house is in very bad condition, but the school is very interesting at present, about 45 in regular attendance. The trustees and patrons should be commended for the interest shown in the school.

There is an increasing interest being felt, by the people of this community, for the cause of education.
